Shoot to score

Not only about investments

How do debt management, insurance, tax and estate planning fit into a goals-based approach? They're other essential components of a complete financial plan and can contribute to the likelihood that an investor will achieve their goals.

Debt is a drag on any financial plan, slowing it down with every dollar in interest paid. Having clear goals in mind can be a powerful inspiration to pay down debt and get rid of that drag. Your advisor can recommend strategies to be debt-free faster, including targeting the highest-interest debt first and consolidating debt into a single account with a lower interest rate.

Unexpected events can derail the best-laid plans – and that's where insurance comes in. Health and dental policies can help with the cost of medications, dental procedures and health-related services when needed. Disability and critical illness policies help protect the ability to meet goals by providing financial support change in case an illness or injury prevents you from working. And life insurance policies can help ensure loved ones avoid financial hardship and can continue to make progress towards their goals after the insured person's death.

Plan to reach your goals

With the right strategies in place, you're much more likely to reach your goals. Here are steps you can take in the short term, medium term and long term to improve your financial well-being. Remember, every step you take gets you closer to your goals.

Short-term steps	Medium-term steps	Long-term steps
Create a budget	Arrange insurance protection	Save for retirement
Start an emergency fund	Save for larger purchases	Develop an estate plan
Pay off debts	Plan for children's education	Save for "nice to haves"

Effective tax planning reduces the amount of money paid in taxes, providing more money to invest towards goals. Simple tax strategies include maximizing Registered Retirement Savings Plan contributions every year to get the biggest possible tax deduction and, where practical, earning the most highly taxed type of investment income – interest income – within a registered plan where money grows on a tax-deferred or tax-free basis. For more ideas, [check out this article](#). For many people, the goals addressed by estate planning are among the most important. Estate planning can help make sure assets pass to beneficiaries efficiently and tax-effectively, establish strategies to meet the needs of a loved one with a disability and/or set up a generous gift to charity. It can both provide significant tax savings and ensure family members are well taken care of. [Speak with your advisor](#). Defining clear goals and aligning financial planning to meet them can help you make the most of your money and avoid common financial pitfalls. For example, knowing that overspending or paying too much in interest will jeopardize your ability to have the experiences you want in life may prompt you to redouble your efforts to trim your budget and eliminate debt. Meanwhile, knowing exactly how much income you need in retirement makes it less likely you'll skip a few months of saving, because you know the precise amount of money you must set aside regularly to stay on target towards the future you want.

Furthermore, understanding what you need your money for and when you need it can help you avoid investments that are inappropriate for your situation and focus on the ones with the risk/return profile that suits you best. An added benefit is that when you know exactly why you're invested in a specific way, you are less vulnerable to the distractions of market ups and downs and can stay invested towards your goals.

Overall, focusing on goals makes financial planning more concrete and less abstract, allowing you to mix and match strategies with a very clear idea of what they need to achieve. It can also clarify conversations with your advisor, giving them a well-defined job: to get you what you want when you want it. Speak with your advisor about how a goals-based approach to financial planning can help you achieve your dreams. [How much do you need to retire?](#) Achieving your desired retirement lifestyle depends on accurately estimating the income you will need to pay for it. As a starting point for your calculations, consider these averages from Statistics Canada. Of course, your costs

may be quite different – but it's helpful to look at which costs are likely to drop, rise or stay roughly the same after you retire.

Average expenditure per household	40 to 50 years old	65 years old and over
Shelter	\$22,019	\$13,399
Health care	\$2,673	\$2,936
Transportation	\$15,010	\$8,071
Utilities	\$2,769	\$2,286
Food	\$9,620	\$6,657
Recreation	\$4,778	\$3,208

Source: Statistics Canada, Table 11-10-0227-01: Household spending by age of reference person, August 28, 2019, www150.statcan.gc.ca/t1/tbl1/en/cv.action?pid=1110022701 (accessed July 23, 2019).

REPORT OF THE INDEPENDENT AUDITORS ON THE SUMMARY FINANCIAL STATEMENTS

To the Mayor and Councillors
TOWN OF ROCANVILLE

Opinion

The summary financial statements, which comprise the statement of financial position as at December 31, 2019 and the statement of operations for the year then ended, are derived from the audited financial statements of the TOWN OF ROCANVILLE for the year ended December 31, 2019. We expressed a qualified audit opinion on those financial statements in our report dated July 29, 2020.

In our opinion, the accompanying summary financial statements are a fair summary of the audited financial statements in accordance with Canadian public sector accounting standards. However, the summary financial statements are misstated to the equivalent extent as the audited financial statements of the Town Of Rocanville for the year ended December 31, 2019.

Summary Financial Statements

The summary financial statements do not contain all the disclosures required by Canadian public sector accounting standards. Reading the summary financial statements and the auditors' report thereon, therefore, is not a substitute for reading the municipality's audited financial statements and the auditors' report thereon.

The Audited Financial Statements and Our Report Thereon

We expressed a qualified audit opinion on the audited financial statements in our report dated July 29, 2020.

Our qualified audit opinion is based on the fact that Recreation Boards derive revenue from various sources the completeness of which is not susceptible to satisfactory audit verification.

Management's Responsibility for the Summary Financial Statements

Management is responsible for the preparation of the summary financial statements in accordance with Canadian public sector accounting standards.

Auditors' Responsibility

Our responsibility is to express an opinion on whether the summary financial statements are a fair summary of the audited financial statements based on our procedures, which were conducted in accordance with Canadian Auditing Standard (CAS) 810, "Engagements to Report on Summary Financial Statements."

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

To the Residents of the
TOWN OF ROCANVILLE

Management of the TOWN OF ROCANVILLE has the responsibility for preparing the accompanying financial statements and ensuring that all information in the related reports is consistent with the statements. This responsibility includes selecting appropriate accounting policies and making objective judgments and estimates in accordance with Canadian public sector accounting standards.

In discharging its responsibilities for the integrity and fairness of the financial statements and for the accounting systems from which they are derived, management maintains the necessary systems of internal controls designed to provide assurance that transactions are authorized, assets are safeguarded and proper records maintained.

Ultimate responsibility for financial statements to the residents of the municipality lies with the Council who review the financial statements in detail with management prior to their approval for publication.

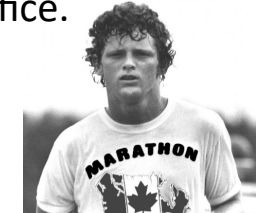

External auditors are appointed by the Council to audit the financial statements and are available to meet separately with both the Council and management to review their findings. The external auditors have full and free access to the Council to discuss their audit and their findings as to the integrity of the municipality's financial reporting and the adequacy of the system of internal controls.

Administrator

Terry Fox Walk/Run

This year the Terry Fox run will be held on September 20th. Unfortunately we won't be able to host our usual run and wiener roast but we would like to encourage everyone to get out for a walk or run (the ski trails are beautiful) that day. Pledge forms are available at the Rec Office.

Terry lost his right leg to cancer at age 18.

Terry wanted to raise money to find a cure for cancer so he decided to run across Canada to ask for help.

Terry called his run the Marathon of Hope because he believed that a cure could be found for all cancers.

who is terry?

Terry started his Marathon of Hope in St. John's, Newfoundland but had to stop in Thunder Bay, Ontario because cancer had returned in his lungs.

Terry died in June 1981 knowing that Canadians had raised \$24 million for cancer research, his goal reached.

Canadians never forgot Terry. The Terry Fox Run has been held every year since 1981, in Canada and around the world, raising more than \$800 million for cancer research.

Terry Fox Run. Sunday September 20. One Day. Your Way. Register and fundraise at terryfox.org

Each year our local businesses are sought out for donations to fund events and projects in our community.

We would like to encourage groups receiving donations to give back by shopping local. We understand that materials can sometimes be purchased cheaper at big box stores however it is unlikely those stores will be funding your event.

Let's work together as a community and support each other.

If you wish to continue to receive donations from your local businesses, please support local.

Love where you live!

As many of you know, the town of Rocanville has a stray cat problem. These cats are sick and malnourished. They can reproduce. This is not a fair life for the cats or the people of Rocanville.

I have decided to start a nonprofit organization to help control the stray population. I am seeking the help of some town residents. A couple to be board members and some who would like to help with other aspects such as fundraising and mailings.

I am hoping as a community that we can come together and provide these cats with a better life.

If you are interested in helping at any level or for just more info on how the basics of the organization will run, then please call or text me at 306-434-6749. I can also be reached by email at cgbourgeois@hotmail.com.

Thank you for your time
